**NEW!!! Professional Development Opportunity for Mental Health Clinicians in Wisconsin**

**Trauma Informed Child-Parent Psychotherapy (TI-CPP)**

**Trauma Informed Child-Parent Psychotherapy (TI-CPP)** is an evidence-based, parent-child therapeutic treatment for children from birth to age 6 who have experienced trauma and, as a result, are experiencing emotional, behavior, attachment, and/or mental health problems.

**Apply Now!**

**Application Due Date:**
April 15th for consideration for admission and scholarships

**Scholarships are available to cover costs based on ability to pay.**

**Prerequisites:**
- Licensed mental health professionals with a minimum of a master’s degree (Those seeking licensure must currently be supervised by a licensed clinician.)
- Professionals who have completed, are currently enrolled in or will enroll in the University of Wisconsin Infant, Early Childhood and Family Mental Health Capstone Certificate Program OR who have graduated from a comparable training program in infant/early childhood mental health (Experience, qualifications and scholarships will be individually reviewed with each applicant.)
- **Priority will go to clinicians who:**
  - See young children and their parents in the Child Welfare System in Wisconsin, or who are at risk
  - Accept Medical Assistance

**Training Components:**
- **18 month commitment** for teams (of 2-4 professionals) that include both direct mental health clinicians and their supervisors and agency managers
- Three in-person learning sessions: August 1-4, 2016; January 24-25, 2017 and July 31- August 1, 2017 in Madison, WI
- Use of TI-CPP with 4 child-parent dyads
- Twice monthly, one-hour fidelity group telephone calls with national trainer
- Twice monthly, one-hour small group reflective consultation telephone calls
- Monthly, one-hour telephone calls for supervisors
- UW Extension CEUs
- Eligibility for National Rostering in TI-CPP upon completion and review of the above components
